WALTKOCH

To Whom It May Concern:

This letter is written as an introduction and recommendation of RJO Networks, our external management information technology arm for Walthoch Ltd which is an international enterprise with revenues in the mid-million dollar range.

I have been working with Rich Ozsvath and his organization for over eleven years as the corporate manager of IT issues between RJO Networks and Walthoch Ltd. Over these eleven years upgraded UNIX and Microsoft Windows software along with newly acquired network equipment and peripherals has been acquired. During all periods of upgrades, acquisitions and maintenance, Rich Ozsvath has supported and implemented with excellent performance thus achieving our goals in not only an organized but timely manner as well. His organization strives to continually address maintenance issues combined with preventative maintenance on a professional and skillful level that provides comfort and confidence for my organization in its IT systems.

For these reasons I highly recommend RJO Networks for those seeking support in this ever changing technological environment. You can count on RJO Networks continuous support from minor to major issues. I am confident that for any new issue or problem that arises that RJO Networks will, as demonstrated in the past, come to the rescue well equipped and save the day, at least my day.

Please feel free to contact me if you have any questions.

Best Regards,

A handwritten signature in blue ink that reads "Cindy Groover".
